

Unit of Image is pixel.

each Pixel is made up of color channels.

pixel →

Popular color channels

1) RGB → PIL, matplotlib

2) BGR → Default in OpenCV

3) CMYK

4) HSV (Hue Saturation value)

4) HSV (Hue Saturation Value)

5) Grayscale

6) RGBA (RGB (A) → Alpha channel
↓
adds transparency)

7) BGRA

$$\underline{\text{Aspect Ratio}} = \frac{\text{width}}{\text{Height}}$$

range of each color channel

for RGB, BGR, CMYK } → 0-255

HSV → H range → 0-360 (Degrees)

S " → 0-100 (Percentage)

V " 0-100 (Percentage)

Video

FPS → frames per second
